NEW FORM FOR BALLOTS.

A bill has passed the House requiring that hereafter, in the several counties of this Commonwealth, the names of all judges voted for at a given election shall be on one ticket, which shall be labeled "Judiciary;" the names of all the candidates for State offices on another ticket, labeled "State;" and the names of all candidates for county offices, including Senator, members of Assembly, and members of Congress, on a third ticket labelled "County." One ticket shall embrace all the township officers voted for, and shall be labeled "Townships," and one ticket shall embrace all borough officers voted for, and shall be labelled "Boroughs." The Senate has not taken action on this bill.

THE CORN OWNED.—Postmaster CLEVELAND, of Hartford, Connecticut, wrote to President JOHNSON stating he was opposing the election of Gen. HAWLEY, the Republican candidate for Governor, and going in for ENGLISH, democrat, because that HAWLEY opposed the President's Policy. At the same time he tendered the resignation of his office. President JOHNSON replied:

"Your political action in upholding my measures and policy is approved. Your resignation is, therefore, not accepted, but is herewith returned.
(Signed) ANDREW JOHNSON.
"Executive Mansion, March 23."

How many more developments of this sort do our confiding Republicans require, to get their eyes open?

THE CIVIL RIGHTS BILL.—There is much speculation as to the fate which awaits this bill at the hands of the President. Some of his intimates predict a sweeping veto. Others say his veto will object only to the second and third sections—copied substantially from the Fugitive Slave Law. In other quarters it is hoped the President will allow the bill to become a law by detaining it past the ten days, and let a case be made on it once for the Supreme Court. The probabilities are all in favor of a broad veto.

GEN. GRANT GOING TO EUROPE.—Lieut. Gen. GRANT is shortly to sail for Europe, and the Navy Department are now looking up a vessel for his accommodation. Capt. AMMEN, an old schoolmaster of the General's, and now on the iron-clad Miantonoma, is to be transferred to the man-of-war that conveys the military chieftain across the ocean. The Miantonoma is ordered off for a short but important cruise in adjacent waters.

QUARANTINE.—In pursuance to general instructions from headquarters of the army, officers in command of military departments are establishing quarantines at the different Southern ports. Suitable vessels for quarantine guardships are stationed along the coasts, and health officers have been appointed to inspect all vessels subject to the provisions of the order.

THE INCOME TAX.—It is now so certain that no action will be taken by Congress amending the income tax in season to affect the next assessment, that the Commissioner of Internal Revenue has commenced the preparation of blanks and instructions under the existing law. Assessors and Assistant Assessors will be instructed to prepare immediately for the assessment.

A PRECAUTION.—So many Federal appointees at the South are swallowing the iron-clad oath with such easy avidity, that a bill will be prepared and probably passed by Congress, requiring District Attorneys and Grand Juries in the rebellious States to return all cases of known perjury for indictment before their respective District Courts.

ANOTHER AMENDMENT.—The House Judiciary Committee will report an amendment to the Constitution preventing any officer who held office under the United States and was engaged in the rebellion, from ever again holding any office under the United States.

THE PENNSYLVANIA REIMBURSEMENT.—The bill to refund the moneys advanced by Pennsylvania for furnishing troops, has passed the House, 66 to 35. It will probably go through the Senate, and become a law.

QUANTRELL.—The man arrested under the supposition that he was this notorious offender, is not identified as such, and will soon be released, unless new developments turn up.

Hostetter's Celebrated Stomach Bitters

READ E. D. E. N. SOUTHWORTH'S LETTER.

PROSPECT COLLEGE, GEORGETOWN, D. C.,
April 2, 1863.

MESSRS HOSTETTER & SMITH—*Gentlemen*: It gives me pleasure to add my testimonial to those of others in favor of your excellent preparation. Several years of residence on the banks of a Southern river, and of close application to literary work, had so thoroughly exhausted my nervous system, and undermined my health, that I had become a martyr to dyspepsia and nervous headache, recurring at short intervals, and defying all known remedies in the Materia Medica. I had come to the conclusion that nothing but a total change of residence and pursuits would restore my health, when a friend recommended Hostetter's Bitters. I procured a bottle as an experiment; it required but one bottle to convince me that I had found at last the right combination of remedies. The relief it afforded me has been complete. It is now some years since I first tried Hostetter's Bitters, and it is but just to say that I have found the preparation all that it claims to be. It is a Standard Family Cordial with us, and even as a stimulant we like it better than anything else; but we use it in all nervous, bilious, and dyspeptic cases, from fever down to toothache. If what I have now said will lead any dyspeptic or nervous invalid to a sure remedy, I shall have done some good.

I remain, gentlemen, respectfully yours,
E. D. E. N. SOUTHWORTH.

Hostetter's Bitters

THE LATEST NEWS BY TELEGRAPH.

The New Orleans Municipal Election—Statement of Facts.

NEW YORK, March 19.—The *Herald's* Washington special gives the following as facts regarding the President's interference in the municipal election of New Orleans: Mr. Kennedy, the present Mayor of the city, telegraphed to the President on the 16th instant, expressing his doubts as to the fitness of his successor elect, Mr. Monroe, and inquiring whether or not he should yield the succession. The President replied as follows by telegraph: I have no information to give in regard to surrendering the Mayoralty of New Orleans to the person elected to fill the position. I have no information showing that election was not regular or that the individual who has been elected cannot qualify. In the absence of such proof the presumption is that the election has been according to law, and that the person elected can take the oath of allegiance and loyalty required.

Mr. Monroe seems to have known that efforts were being made to keep him out of office, and also telegraphed to the President yesterday, that he had been regularly elected Mayor of New Orleans; that he is loyal to the Union and as enthusiastically in favor of the reconstruction policy of the President, as any man living.

The President replied to this by repeating the telegram sent to Mr. Kenard, thus leaving the matter, where it belongs, to the people of New Orleans and the civil and military laws that govern such cases.

Demand for American Vessels by Shippers—Treaty With Cheyenne Indians.

WASHINGTON, March 24.—The United States Consul at Fort Mahon, Minorca Island, under date of February 28th, informs the Department of State that United States merchant vessels are eagerly sought after about the Mediterranean, and are preferred by freighters to vessels of any other nation. He says that within a very short time past American vessels could have been chartered to great advantage. The grain trade from the Black Sea offers employment to American shipowners, and is now nearly monopolized by the Greeks.

The Commissioner of Indian Affairs has been officially informed that the Cheyennes and Arrapahoes have agreed to go to the Arkansas for the purpose of signing a treaty of peace. These Indians were preparing for an attack on the stock and property of the Overland Dispatch Company, when the courier from Major Wynkoop arrived to invite them to meet him for the above named object. The Commissioner is in receipt of letters from Omaha stating that all the Indian tribes are now at home and preparing for spring operations.

The weather prophets announce that the unusual quantity of snow that fell during the winter is indicative of a prosperous and fruitful agricultural season.

Secretary Seward's Answer to M. Drouyn Huys—Favorable Reception in France.

NEW YORK, March 24.—The *Tribune's* Paris correspondent of the 2d inst., writes of an important fact not yet probably known in Paris. Mr. Seward's answer to M. Drouyn Huys' dispatch, of January 9th, has arrived. Although the French Government has not yet pronounced an official opinion upon it, the Cabinet of the Tuilleries is very much pleased with its contents. While reiterating and reenforcing all that the United States Government has ever said upon the Mexican question, he has happily commanded language to describe the position, from which America will not budge an inch, in terms which France will probably make up its mind to consider as not incompatible with its own views. For the moment, the undoubted impression of the French ministry, individually, is that Mr. Seward's latest communication relieves them from a load of anxiety, and that the relations of France and the United States, in regard to Mexico, now stand upon a very good footing.

Latest From Jamaica—Investigation of the Late Revolt Progressing—Rebels on Trial.

NEW YORK, March 19.—Fourteen days later news from Jamaica has reached us by the arrival of the steamship Montezuma at this port yesterday, from Kingston on the 7th.

The Royal Commission of inquiry into the causes and suppression of the recent revolt was still progressing. Mrs. Gordon, wife of George W. Gordon, who was executed as the ring leader of the revolt, was examined on the 6th inst. The examination had now lasted thirty days.

The trial of Ramsay, Provost Marshall of Morant Bay, for atrocities committed in the discharge of the duties of his post, was proceeding before the Civil Magistrates, but the proceedings were conducted in private. The accused had been admitted to bail.

In the Assize Courts thirty-seven of the prisoners charged with participation in the rebellion were on trial. All were acquitted.

The Distillery Fraud Case.

NEW YORK, March 24.—The case of the United States against Simon Donan, one of the distillers, whom it is alleged defrauded the Government by making false returns, was continued to-day before Commissioner Betts. There are several defendants who are charged with the same offence as Donan, and who occupy the same position, and their case is to be made a test case. A motion was made to dismiss the complaint, on the ground that it did not come within the province of the statute. The Commissioner, without passing on this matter, permitted the examination to be proceeded with. Edward H. Hyatt, the officer alleged to have been bribed with the view of giving the use of the Government brands to the persons in the alleged frauds, was examined on the part of the prosecution.

From California—Mining Stocks.

SAN FRANCISCO, March 24.—The steamer Golden City, with passengers and mails from New York, on the 1st, has arrived.

D. O. McCarthy, editor of the *Flag* newspaper, now refuses to give the investigating committee of the Legislature any information concerning the alleged bribery. The members of the Committee have summoned all the leading business men of the city and examined them, but they all deny any knowledge of the bribery.

Mining Stocks are again firmer: Savage, 10.25; Belcher, 3.20; Gould & Curry, 10.50; Yellow Jacket, 7.75; Chollar Potosi, 4.02; Ophir, 7.32; Hall & Norcross, 10.00; Alpha, 4.00; Bullion, 1.18; Imperial, 1.45; Empire Mill, 2.00; Legal Tenders, 78½.

Northern Route of the Pacific Railroad—Shipment of Fractional Currency.

NEW YORK, March 24—The *Tribune's* special says: A large number of the citizens of the Northern territories met in Washington, on Saturday, for the purpose of expressing their views as to the practicability of the proposed Northern route of the Pacific Railroad. A committee of five was appointed to prepare an address urging Congress to grant the aid asked for, after which the meeting was addressed by several gentleman present.

The shipments of fractional currency last by the Treasury Department, amounted to $[illegible],000, of which $100,000 was forwarded to the sub treasurer in New York.

The Fenians—Large Sale of Irish Bonds.

NEW YORK, March 24.—Nothing of special importance transpired to-day at the O'Mahony Headquarters. The sale of bonds yielded a large amount. This morning a communication was received from one of the Fenian leaders in Dublin, stating that the British Government had given orders to open and examine all letters from the United States to such persons in Ireland as might be suspected of complicity in the movement for Irish independence. The usual bustle and excitement about Sweeney's Headquarters continued, but nothing significant was made known to the public.

Execution.

AUGUSTA, GA., March 23.—The negro Essex Walker, was hung to-day for the murder of Dr. Thomas Boyne, of Essex county.

THE TEXAS STATE CONVENTION.

MORE HOPEFUL ACCOUNT.

Treaty with Frontier Indians.

REPORT OF MAJOR WYNKOOP.

NEW YORK, March 24.—The *Herald's* special says: President Johnson, yesterday, received a dispatch from A. J. Hamilton, Provisional Governor of Texas, showing a more hopeful account of the doings of the State Convention, than any that have yet found their way into print. Governor Hamilton sums up by saying that although the convention had been in session one month without accomplishing anything material, measures similar to those adopted by Alabama were likely to prevail; that there will be no trouble whatever concerning a repudiation of the rebel war debt, and that the Freedmen's Bill will be treated in a more satisfactory manner than by most of the other States. The principal difference of opinion was whether the ordinance of secession should be merely repealed or declared absolutely null from the beginning.

The report of E. W. Wynkoop, Major U. S. A. and special Indian Agent, located at Fort Laramie, dated Kansas, March 6, 1866, and enclosing the treaty made with the Arrapahoe and Cheyenne Indians, has been received at the Indian Bureau. The treaty is dated on Bluff Creek, Little Arkansas River, Kansas, March 1st, 1866, and bears the signs of twelve chiefs. Among the number is the notorious George Bent, (Ho-mah-ha-ket.) This chief has long been a terror to the frontier, and the fact of his signing the treaty is an assurance of the future peace and safety of outer settlements.

Maj. Wynkoop complains of the system of free trade carried on by irresponsible parties, and attributes all the difficulties to the introduction of contraband articles and the admission of unprincipled men.

The expedition brought in a young white girl, fifteen years of age, named Amanda Fletcher, captured in August last near Fort Halleck.

The publication in several papers that the appointments at large for cadetships at West Point had been made by the President or Secretary of War was premature. The question is still open and the selections undecided. About five hundred applications have been made for the ten appointments.

Important to Railroad Companies—Gen. Grierson Promoted—Washington News—Gen. Terry Sued.

NEW YORK, March 24.—The following extracts from a letter addressed to an Assessor of Internal revenue by the Deputy Commissioner are of interest to Assessors and Railroad Companies:

Section 122 imposes a tax of five per cent. on all dividends and profits of such companies carried to the account of any fund or used for construction, as it was found to be impracticable for railroad companies to state their net gains as often as a dividend was declared. This office has not insisted on its being done, but requires such statements to be made once a year. One return during the year on form No. 65 should show the net gains and profits over the dividends declared for the entire year, and the tax should be paid on such profits. It will be observed that the amount of profits used for the construction is subject to the tax of five per cent. the same as if it were added to surplus or contingent funds.

The *Times'* special says: Brigadier General Benjamin H. Grierson, of Delaware, has been promoted to the rank of Major General, for gallant and meritorious services during the war. His commission dates from May 27th, 1865. It is rumored that he will be stationed in the West.

A Washington special states: It is asserted that if Congress should favor the endorsement of the Mexican bonds, the agent of Maximilian will demand a similar guarantee for the same amount for the Imperial loan.

A Washington dispatch to the *Times* states that the Ways and Means Committee has determined to keep the amount of exemption from income tax at six hundred dollars, with the addition of fifty dollars for each child up to fifteen.

The *World's* special says: A gentleman in Washington has sued Major-General Terry, commanding in Richmond, for trespass and injury committed against him and his family while sojourning last summer on the Eastern shore of Virginia.

Last evening the residence of Jno. P. Moore, No. 119 Madison avenue, was entered by a thief, and a tin box containing United States and other securities to the amount of about one hundred thousand dollars stolen. A reward of five thousand dollars has been offered by Mr. Moore for the recovery of the bonds. No clue to the thief has as yet been obtained.

From New Orleans—Louisiana Legislature—Mexican Advices.

NEW ORLEANS, March 23.—The Legislature adjourned last night at midnight. They have passed one hundred and twenty-three important bills. There was talk of an extra session, but it is believed that the Governor will not call one until after the May elections.

The organization of the city government proceeds slowly.

The *Picayune* denounces all charges against Tom Parker, which caused his rejection as Port Surveyor of New Orleans, to be false.

Galveston dates of the 20th state that the 48th Ohio regiment mutinied, saying that their term of service was out. Over sixty members are under arrest. They were arrested by the negro troops who now guard Galveston.

The French dispatch steamer Sonora arrived from Vera Cruz on the 13th, via Tampico on the 15th and Bagdad on the 18th. The weather is already quite warm, but healthy. The population is large compared to what it was in former years, but business lively. Work on the railroad from the coast, in the direction of the capital, is progressing rapidly, but is not in running order further than Paso Del Macho, sixty-five miles from Vera Cruz.

The Commission which went to Mexico to announce Leopold's death, when on their return to Vera Cruz were attacked by guerrillas at Rio Frio, between Pueblo and the capital. One was killed, another had his arm fractured, and afterwards amputated, and a third was badly wounded.

City of Mexico dates to the 25th ult., says the capital is full of people, but business is dull. There are very few Americans there, nearly all having gone to Cordova. There is no sickness at Vera Cruz, Tampico or Bagdad. Small quantities of troops are constantly arriving from Europe, and not many leaving, only those whose terms expire. There are about thirty thousand French troops in Mexico and about ten thousand Mexicans in the Imperial service. General Mejia is the most highly trusted.

The Spanish-Chilian Difficulty—Further Details.

NEW YORK, March 24.—The only additional news of importance gleaned from South American correspondents, regarding the Spanish-Chilian war, is, that Commodore Nauz, immediately upon his arrival at Valparaiso, determined to send the iron clad frigate Numoncia to the scene of action, and the Ancoed with orders to run the batteries and destroy the allied fleet at all hazards.

The Spanish version of the affair, however, is published. It alleges that the allied squadron showed no disposition to fight, but while the Bianca was making a reconnoisance she was suddenly opened upon by a battery, which did some damage to her rigging. She opened fire on the allied fleet, and the Villa de Madrid came to her assistance. As soon as the latter ship came within range she opened fire, engaging both fleet and batteries at the same time.

The action was continued incessantly for two hours, the two Spanish ships expending about seven hundred shot and shell, when their commanding officer finding it impossible to silence the shore batteries, and not caring to venture his heavy ships into a narrow and dangerous channel way, hauled off out of range, after his vessels had been struck seventeen times in their hulls. The Bianca received one shot below the water line, which was immediately plugged. They report no casualties.

From the published Chilian official account of the late fight between Spanish and Chilian vessels, it appears that the Chilian vessels were not damaged to the extent reported, and it is claimed it was the Spaniards who were challenged to open combat and refused, instead of the Chilians.

The Fenian Alarm in Canada.

NEW YORK, March 24.—The *Herald's* special from Toronto last evening says: The excitement has quieted down here, although no relaxation is apparent in the preparations for defense. There was almost a panic in Montreal last night over a report that ten thousand Fenians were moving on the Isle Aux Noix.

A volunteer from Brookville has been sent to Montreal for admitting himself a Fenian. According to Michael Murphy, the supposed Canadian Head-Center, eighty-five thousand dollars of Fenian bonds have been taken up in Canada. Although a week has passed since the alarm was sounded, and nothing has occurred since to frighten, the citizens of Ottawa are still so nervous, that night patrols and countersigns are still in force. The left wing of the Canadian army on the St. Lawrence border still exhibits great activity, and fresh troops are constantly arriving. The military authorities threaten that if the Fenians attempt to cross at Ogdensburg they will fire on that city with the guns of Fort Wellington, at Prescott, opposite.

Nearly a million feet of contract lumber are awaiting shipment at Ottawa for the states.

The Paraguayan War—No New Movements.

NEW YORK, March 19.—Later news in regard to the river Platte war does not show any new movements of importance. The grand attempt at an advance by the allies had not yet taken place, and the hostile armies still confronted each other on the opposite sides of the Parana. A small force of about six hundred Paraguayans had made a dash across that river with a loss of eight or ten men on each side, but the exploit does not appear to have resulted in advantage to either.

Additional Brazilian gunboats and ironclads were on the way to the seat of war, and several vessels had arrived with munitions and supplies for the allied troops. Reinforcements to the number of about 4,000 men had joined the allies.

Civil Rights Bill Veto—The Loan Bill.

NEW YORK, March 24.—The *Evening Post* contains the following:

Washington, March 22.—The President's veto of the civil rights bill will probably be sent to Congress soon.

It is expected that the loan bill will be amended by the Finance Committee.

The President yesterday expressed his disapproval of Mr. Stewart's proposition for a universal amnesty on condition of the establishment of free suffrage.

PROTECTION OF GERMAN LABORERS.

Judgment Against Owners of Meteor.

THEIR APPLICATION REFUSED.

NEW YORK, March 24.—The German Republican Central Committee last night passed resolutions calling upon the Legislature to pass a bill providing for a Board of Control and Revision and a Board of Public Works, and a committee authorized to protest against the alleged abuses in Castle Garden, where it is alleged German emigrants are entered to the Southern States under false pretenses.

In the United States District Court yesterday, Judge Betts pronounced an elaborate judgment, in which he declared that the application of the owners of the steamship Meteor for the bonding of that vessel should be refused. It will be remembered that the Meteor had been seized by order of the Government, on information that she was intended to be used as a Chilian privateer against the commerce of Spain. The propositions laid down by the Court are: First, that the Federal Courts, setting in admiralty, have authority, both parties consenting, to order the delivery of personal property to the claimant, on the latter filing stipulations for its value. Second, That if there be objections to the application to bond, the whole matter is within the discretion of the Court. Third, That if nothing were in the present case but the rules and the practice of admiralty courts, Judge Betts would refuse the present application, out of a sense of obligation to enforce the neutrality of the country. Fourth, That the neutrality act of 1818 is, however, conclusive upon the Federal Courts, and commands them not to permit a vessel, in the condition of the Meteor, to be withdrawn from custody by stipulations for value.

XXXIXth CONGRESS---FIRST SESSION

WASHINGTON, D.C., March 24, 1866.

[In preparing the Loan Bill to be telegraphed yesterday, a printed copy was used, containing a clause which had been struck out. The following clause should have been omitted: "And provided, that the bonds which may be disposed of elsewhere than in the United States, may be made payable, both principal and interest, with coin or the currency of the country in which they are made payable, but shall not bear a rate of interest exceeding five per cent. per annum." The above clause was not in the bill as it was passed.
HAYES, Reporter.]

HOUSE.

The House met as if in Committee of the Whole, the only business in order being a general debate on the President's annual message. The attendance, both on the floor and in the galleries, was very slim.

Mr. Brooks rose to a personal explanation in reference to the *Globe* report of the discussion between himself and the gentleman from Ohio (Mr. Garfield) on Thursday last. He stated that remarks, purporting to have been made by Mr. Garfield were not heard by him, (Mr. Brooks) and were, as he understood them, incorrectly reported, though it was not for him to say how or when the misreporting occurred. Referring to the report made by Mr. Garfield last Congress, from the select committee, to investigate the management of the currency printing bureau, he found that, although it was signed, it commenced by reciting that "Mr. Garfield, from the committee, made the following report." The minority report was signed by himself (Mr. Brooks) and Messrs. Stewart, Steele and Dawson.

The conclusion of the report which he had made was in these words: "*Resolved*, That the policy of putting public money in the Treasury has resulted in a great saving of expense to the Government, and security against frauds, and that the affairs of the Printing Bureau have been administered with marked ability and integrity." In addition to this there was a report from Governor Fenton, expressly stating that he concurred with the report of the Committee in everything except a reflection on the New York Bank Note Company.

Mr. Wilson, of Iowa, said that he had not concurred in the conclusions of the Committee, and that if the report had been presented to him for his signature, he would not have signed it.

Mr. Garfield stated that this was the first that he knew that the gentleman from Iowa dissented from the report of the majority. The majority had authorized him (Mr. Garfield,) to make the report and he had made it.

Mr. Wilson said that he had been asked by Mr. Henry Winter Davis, a member of the Committee, whether he was willing to sign the report, and replied that he was not, as he did not agree with the Committee in its conclusions as set forth in the report, and in the resolution accompanying it.

Here the matter dropped, and Mr. Moulton proceeded to address the House.

Mr. Moulton, of Illinois, in discussing the question of reconstruction, argued that the public faith and security required, First, that the Government shall be absolutely protected from the repetition of treason and rebellion by providing for the punishment of treason. Second, That the freedmen will be secured an absolute equality with the white man before the law, and shall be endowed with every political right necessary to maintain that equality. Third, That representation in Congress shall be founded on, and in proportion to, the numbers entitled to suffrage. Fourth, That the rebel debt shall absolutely be repudiated. Fifth, That civil rights shall be guaranteed to all with the means to enforce them. He held that these rights and conditions should be secured by proper amendments to the Constitution, and that now was the time to inaugurate these amendments. In relation to the President, he said: Until recently he had the confidence of the Union party, and that no honorable man could have believed that he would desert the party which had defended him against the assaults of traitors, and had elected him to the position he held. Ingratitude had been ever regarded as a crime of the most damning character, but yet, in his opinion, Andrew Johnson would go down to posterity not only as the betrayer of his party, but as an ingrate, infamous in all time to come to all honorable men.

All the instincts of Andrew Johnson, he said, were intensely Southern. He hated Northern men as intensely as he did Davis and Toombs, Beauregard or Lee—this the southern people knew, hence their confidence in Johnson. In his (Mr. Moulton's) opinion, it was, to say the least, unfortunate that any man with intense Southern feelings and instincts, should at this time be at the head of the government; the pernicious consequences of it might require the work of ages to correct and overcome.

Mr. Meyers, of Penna., next addressed the House, taking strong grounds against the President's policy of reconstruction. He held that none of the rebellious States should be admitted to representation until it had been formed by the Constitution and laws to the change in political stations brought about by the war. He hoped that the time was near at hand when that guarantee and recognition should be given to Tennessee. The other rebel States he showed had no right to complain of delay; but even as to them he would look upon it as a prodigy when their rehabitation should be complete. Slavery being dead, it was the duty of Congress to alter the representation based upon it. He would not demand of the South a policy which his own State had not adopted, but he would ask from the North and South that a population excluded from voting should not avail in any State for the purposes of representation.

Mr. Buckland, of Ohio, next addressed the House. He said that the people were becoming very impatient at the delay in reconstruction, and did not understand why Congress had not adopted some definite plan. He held that the people of a State, finding themselves from any cause without a government, might organize a government and exercise its functions without the assent of Congress, but he did not think that representation should be admitted from Tennessee or from any of the rebel States without the concurrent and joint action of both branches of Congress. He deprecated warfare against the President. The people did not believe that Mr. Johnson was about to prove recreant to the great trust reposed in him, and they would stand by him regardless of attacks from any quarter. If he was sure that the rights of the loyal whites and freedmen would be protected by the Southern people he would vote to-day to restore those States to their practical relations with the government without requiring more than a single amendment to the constitution, and that would be on the subject of apportioning representation. His own opinion was that representation should be founded solely upon voters.

Mr. Hart, of New York, next addressed the House on the same question. He took the ground that the people of the South were not in a condition to be entrusted with full powers in the Government. In support of that position, he quoted extensively from testimony taken before the Reconstruction Committee.

Mr. Lawrence, of O., spoke at length on the constitutional amendment prohibiting Congress or the States from making payments on the account of the emancipation of the slaves. There was now in the United States Treasury, as a part of the nine millions of dollars applicable to the payment for slaves enlisted, and as this was provided for by law, and as the amount was small, it was not proposed, he said, to disturb that. He proceeded to argue in favor of the general amendment to the Constitution. Let us, he said, forever close this question, or it will rise up to create alarm among the creditors of the nation. If we do not make amendments, they will not be made when rebel representatives fill these halls. The public demand constitutional amendments, changing the basis of representation, prohibiting the payment of the rebel debt and prohibiting payment for emancipated slaves.

At the close of Mr. Lawrence's remarks, Mr. Wentworth asked whether any preparations were being made to dress the Hall in mourning on account of the fall in gold to 125. (Laughter.) Although I am, myself, delighted with the fall in gold, yet, if the opponents of that policy wish to do anything of the kind, I will not object. (Laughter.)

Mr. Lawrence, of Ohio, would like to inquire at the time whether anything was being done to reduce taxes. These had not fallen as gold had.

Mr. Wentworth replied that the few remaining soldiers and widows of the war of the Revolution, and of the war of 1812, as well as the members of Congress, the employees of the House, and the laboring people generally, would probably have a chance in a few days to rejoice that the credit of the Government was restored. (Laughter.)

The House, at 4.30 o'clock, adjourned.

Activity at Fenian Head Quarters—Appeal of Fenian Sisterhood.

NEW YORK, March 25.—There is continued activity at the Fenian Headquarters. Reports from Ireland say all letters for suspected parties are opened by the postoffice authorities of that country.

The Fenian Sisterhood of this city have made an appeal to their country women and sympathizers for aid for the families of victims of British tyranny, who are now languishing in English prisons.

The Government Finances—Rebel War Claims Decided Adversely.

WASHINGTON, March 24.—The issues of fractional currency from the Treasury Department last week were $244,000, and the redemptions $432,000. The certificates of indebtedness issued for the week amounted to $106,000. The disbursements and transfers amounted for the week to $15,416,321. The disbursements to the War Department, nearly $8,000,000; to the Navy Department, over $4,000,000, and to the Interior Department, nearly $2,000,000. Gen. Spinner holds over $515,000,000 of securities for the circulation of national banks, and over $35,000,000 of securities for deposits; $150,000 of greenbacks, in denominations of ones and twos, were sent to the Assistant Treasurer in New York to-day.

Certain persons residing in the so-called Confederate States during the rebellion, and who had a domicile in said States before the war and during its continuance, now come and demand of the Government the balances which they allege were due and payable before said civil war began, but the second Comptroller of the Treasury has decided that they are not lawfully entitled to payment of the balances. The laws of nations and of Congress, and the decisions of the Supreme Court, he says, justify that opinion.

Last week the Secretary of the Treasury made the following disbursements on account of the hereinafter mentioned departments: War, $7,780,702; Navy, $4,033,729; Interior, $1,908,813; Total, $13,732,254.

The Chilian Minister's Account of the Action of the Columbian States.

NEW YORK, March 24.—The Chilian Minister in New York, Senor Vicuna MacKenna, gives the following account of the action of the United States of Columbia. The deputy, Senor Suares Fortent, presented a series of resolutions of adhesion to Chili to the Columbian Congress assembled in Bogoto, but only as votes of sympathy and without giving to any of those declarations the form and reach of a bill. Two of the resolutions were passed, and if the third, which involved the project of war against Spain did not receive immediate sanction, it should be attributed more to the form in which it was presented than to its spirit, since many of the United States of Columbia, and especially those of Candimamorco, Boyaca and Panama, have already declared their adhesion to the general war against Spain. Besides, President Murillo has declared since the beginning of the question that having virtually ceased to exist in the control of the Republic since Gen. Mosquera was to replace on the first of April, he left to him the definite solution of such an important matter.

The Abducted Negro Children—The President and the Civil Rights Bill—Report of the Reconstruction Committee.

WASHINGTON, March 25.—The Department of State has received authentic information that the three colored children of Rose Elyria, of New Orleans, who were taken to Havana without the consent of their parents, have been sent back to her by the United States Consul at that city. General Canby gave information concerning the abduction or removal of the children, when the State Department instituted the measures which led to their recovery.

Prominent members of Congress say the President will to-morrow return to the Senate the Civil Rights bill, with his objections; while others assert that the message is already prepared.

Senator Howard having returned to Washington, it is expected that the report from the Committee on Reconstruction, bearing the testimony of General Lee, will be presented early this week.

Message of the President to Gov. Hamilton—Anxiety in Toronto—Steamer Launched.

NEW YORK, March 24.—The *Herald's* Mexican correspondent represents that the message of Gov. Anderson, of Ohio, in January last, produced quite a sensation in the Republican party in Mexico. The President's message to Gov. Hamilton, of Texas, in which he reiterates the hope that the loyal Representatives from the South will be permitted to take their seats in the Hall of Congress, bears date of February 16, 1866.

The *Herald's* Toronto report says that much anxiety is felt in Toronto regarding the Fenian movement, since it has been ascertained that our troops have not been sent to guard the frontier.

Judge Coursal, of Albany raid notoriety, has been reinstated.

The new steamer Daniel Drew, of the Peoples' Line, to Albany, was launched yesterday.

From New Orleans.

NEW ORLEANS, March 24.—Cotton weak and unsettled; sales 1,500 bales; receipts to-day, 1,550 bales. Low Middling at 37c. Gold 24. Sterling 33½. New York checks ½ discount. Business for the week closed lively.

The high water has broken through the levee in Upper Louisiana, and work is suspended.

The French Governor has issued proposals for six million pounds of tobacco. They cannot be filled here as formerly.

Three cargoes of Cuban sugar for St. Louis have been detained at quarantine. The press calls for the removal of the quarantine. No cholera or fever prevails in the Mexican Gulf.

The French steamer Louisa brings a large number of Mexican letters and dispatches for New York and France; also, official letters and dispatches for the French, Belgian and Austrian Governments.

The Canadian Defense—Exaggerated Reports.

NEW YORK, March 25.—The *Tribune's* Hamilton, Canada, dispatch says: The Government is still busy with defense. Until spring shall clear the rivers of ice, and a number of gunboats can come up to points along the frontier, all is not considered safe.

The reports of the arming and of the order of the men in Canada, are very much exaggerated. The number of really able bodied men liable to service is not over two hundred, and not one half of them, I know, have offered their services.

An Embarrassing Point for Solution.

NEW YORK, March 25.—European files contain the following additional: It is rumored a misunderstanding exists between our own Government and the American embassy in London, relative to the imprisonment of several persons charged with Fenianism, who assert their claim as American citizens and demand to be liberated or brought to trial—a misunderstanding which has been referred for solution to Washington, and may probably prove embarrassing.

Establishment of Quarantine at Southern Ports.

NEW YORK, March 24.—The *Herald's* special says in pursuance of general instructions from headquarters of the army, officers in command of military departments are establishing quarantines at the different Southern ports. Suitable vessels for quarantine guardships are stationed along the coast, and health officers have been appointed to inspect all vessels subject to the provisions of the order.

Civil Rights Bill to be Vetoed.

NEW YORK, March 24.—The *Commercial's* special says the Civil Rights Bill will unquestionably be vetoed. The President took legal opinion on the constitutionality of the clause providing for the punishment, under certain contingencies, of State Judges, and the veto will be chiefly on this point. Its adoption by a two-third vote over the veto is doubtful.

The Population of Nebraska.

OMAHA, March 24.—The official statement of the Secretary respecting the special census taken a year ago shows that the population then was over forty thousand. It is estimated that it is at least fifty-five thousand now. This corrects the misstatement made in the Senate of Colorado that Nebraska has only twenty-six thousand population.

Loss by the Late Fire at Cincinnati.

CINCINNATI, March 24.—The Ohio Legislature, upon invitation of the Cincinnati Merchants' Exchange, arrived here last night to partake of the hospitalities of the city.

The *Commercial* estimates the loss by the fire at one million seven hundred and fifty thousand dollars, and the insurance at two hundred and ninety-three thousand.

From Fortress Monroe.

FORTRESS MONROE, March 23.—The steamer Peril, from Mobile on the 14th, for New York, in ballast, arrived here to-day.

The reports of cholera in Mobile are doubtless without foundation, but the small pox prevailed there to some extent, principally among the blacks.

Death of Brevet Maj. Gen. Williams.

BOSTON, March 24.—Brevet Major General Williams died last night at 12 o'clock at the residence of his sister in this city, of inflammation of the brain, probably occasioned by his severe labors in the Adjutant General's Department during the past five years. No officer could die more regretted or beloved.

Fenian Meeting in Philadelphia.

PHILADELPHIA, March 25.—Another enthusiastic Fenian demonstration occurred last night at the Academy of Music, under the auspices of Andrew Wynne, the District Centre. Speeches were made by Stephen J. Meany, Gen. B. F. Mullen and P. A. Collins.

Interest on Mexican Loans.

NEW YORK, March 25.—On and after the first of April next, Messrs. John W. Corlies & Co., Financial Agents of the Mexican Republic, will pay at their office, 57 Broadway, interest in gold, due April 1st, on thirty millions of the Mexican loan.

Soldiers' Convention.

LOUISVILLE, KY., March 24.—The Kentucky Soldiers' Convention meets here on the sixth and seventh of April, and not on the sixteenth and seventeenth as reported in the Eastern papers.

Woolen Factory Burned.

CLEVELAND, O., March 24.—Hervey, Bonsfield & Co.'s Woolen Factory was burned last night. The loss is estimated at $150,000. It was partially insured.

River Matters at Louisville.

LOUISVILLE, March 24.—River about stationary, with eleven and a half feet of water in the canal. Weather clear and growing colder.

MARRIED.

NICHOLSON—BEECHER—On Thursday evening, March 22d, 1866, by the Rev. John McMillan, at the residence of the bride's parents, Mr. THOMAS NICHOLSON, of this city, to Miss EMMA BEECHER, of McClure township.

His funeral will take place from his late residence, No. 127 Penn street, on TUESDAY, the 27th inst., at 10 o'clock A. M. Religious services will begin at 9½ o'clock. 2t

CITY AND SUBURBAN.

Robbery—Arrest of the Alleged Thief.

On Friday night, at a late hour, a man named Dunn, hailing from the vicinity of Turtle Creek, was robbed of $160 at the drinking house of Elijah Hall, on Liberty street. Dunn was very much intoxicated, and has no distinct knowledge of the manner in which he lost his money. It appears that he had been drinking freely at Hall's bar, and sitting down on a chair relapsed into a drunken stupor. He thinks he was robbed either immediately before or just after the bar-room was closed. He was put out into the street, and on recovering his senses found that his wallet was gone. Suspicion attached to Tom Williams, a man whose character is bad, and who had been seen in the bar-room about the time Dunn was put out. He was arrested on Saturday evening, at a notorious house kept by Johnny Walz, on Liberty street, near Hall's. He made a show of resistance when the officers went to arrest him, drawing off his coat and assuming a pugilistic attitude. He soon found that resistance would not only prove useless but hazardous, and was taken to the lock-up without much difficulty. His conduct was by no means consistent with innocence, as honest men do not fear to face the officers of justice. He was admitted to bail by Mayor McCarthy for a further hearing. No part of the missing money was found on him, and as the prosecutor was in a condition which renders it impossible for him to give a satisfactory account of the robbery, it will perhaps be a difficult matter to make out a case against the accused. The man who so far forgets himself as to "put an enemy in his mouth to steal away his brains," is, of all persons the least entitled to sympathy when he falls among thieves. Whether Williams is proven guilty or not, it is not likely that Dunn will ever handle a dollar of his missing treasure, and it is to be hoped that he will profit by this very practical "temperance argument," which has been so forcibly presented to him. A man who has once been kicked out of a doggery and robbed of his money—or robbed of his money and then kicked out—should never cross the threshold of a rum hole again. If he has a particle of manly feeling left, he should vow hostility to every one engaged in the business. Those who are "kicked out," however, are generally so far down in the scale of humanity that they find it almost impossible to rise. "The dog *will* return," etc.

A Severe Though Just Sentence—Warning to Roughs and Rowdies.

On Saturday, Judge Stowe called up for sentence a young man named Noah Rea, recently convicted of two charges of burglary and one of felonious assault. It will be recollected that Rea burglariously entered two houses in the Diamond, and that while in the house of Mr. Adams he was discovered, but attempted to escape by firing a pistol at the head of Mr. Adams. The law makes burglary a high felony, for the simple reason that, in its perpetration, there is always danger that murder may follow. Judge Stowe in passing sentence, did not waste any words on Rea, or indulge in any remarks relative to the enormity of his offenses, but sentenced him to undergo an imprisonment in the penitentiary, for the period of seven years on each charge—or *twenty-one years* in all.

The prisoner was raised in this community, and has just about attained the years of manhood. He was a bad boy, and by pursuing a vicious course of life, has gradually brought himself to his present fearful condition. He has had repeated warnings of the consequences to which his wicked conduct would lead, but all these have been unheeded, and he has gone on from bad to worse until it becomes necessary to rid society of his presence. There are scores of young men—or boys, rather—now in these two cities, who are traveling in the same road which Noah Rea traveled. Armed with deadly weapons, they go about in idleness, drunkenness and debauchery, and support themselves mainly by preying upon the property of honest citizens. Rea narrowly escaped the gallows, as the shot fired at Mr. Adams came near proving fatal. It was evidently his intention to kill, and hence the severity of the sentence under this charge.

Judge Stowe, at the opening of the term, gave notice of his intention to deal rigorously with offenders of this grade, and the community will thank and commend him for his course. Nothing short of stern punishment will deter the desperadoes now in our midst, and give the community that protection which the law is designed to afford them. Roughs and rowdies will feel the force of this sentence, and will not be long in coming to the conclusion that Allegheny county is a dangerous place for them to "operate" in. It is not probable that young Rea will survive the term of his long imprisonment, and when he enters his gloomy cell he will feel like one shut out forever from the world.

Presentation.

The proceeds of a late fair given at the Central Presbyterian Church, Allegheny, by Miss Eliza Clarke's Sabbath school class, assisted by the school in common, for the benefit of the Newsboys' Home, in this city, were on Saturday afternoon formally presented to Mrs. Phillips, the excellent matron of that institution, by Rev. J. O. E. Wright, in a few pertinent remarks, in the presence of the Board of Managers, and the fair and youthful originators of the donation, consisting of the following young ladies: Nellie Stewart, Anna Boyd, Bessie McKnight, Lillie Martin, Emma Thompson, Carrie Kuntz, Emma Logan and Katie Kuntz. Mr. J. S. Laveley received the box, containing the net amount of $404.90, and replied by thanking the donors for the gift of their hands and hearts, assuring them that like bread cast upon the waters it would return to them after many days. The affair throughout was very pleasant. The attendance was graced by the lady teachers of the school, together with several gentlemen having the interest of the Home at heart. The following resolutions were adopted by the Board of Managers:

Resolved, That the thanks of the lady and gentlemen managers of the Pittsburgh Newsboys' Home are hereby tendered to the young misses of Miss Clark's class, and the other scholars of the Central Presbyterian Sunday School, Allegheny, for their kind sympathy in our enterprise, and for the kind donation to the funds of the Home secured at their late Fair.

Resolved, That, for this exhibition of charity to the needy boys under the care of the Managers of the Newsboys' Home, may they feel in their inmost hearts that "it is more blessed to give than to receive," and may they command the blessing of Him who went about doing good.

The Life of Rev. Mr. Tennent.

In accordance with a request signed by a number of popular clergymen of the two cities, Rev. D. V. McLean, D. D., of Freehold, New Jersey, will repeat in this city, at the First Presbyterian Church, his Lecture, delivered with great acceptance before the Presbyterian Society in Philadelphia, on the Life and Character of the Rev. Wm. Tennent, who bore so distinguished a part among the great men whose labors resulted in the wide-spread and glorious religious awakening which preceded the war of the Revolution, as that of 1857-8-9 preceded the war of the Great Rebellion. The life and labors of Mr. Tennent were cotemporaneous with those of Whitfield, the Wesleys, Edwards, and other eminent men whose memories only show more brightly as time advances.

One remarkable incident in the history of Mr. Tennent invests it with more than ordinary human interest. A severe illness terminated in apparent death; but a friend discovered in the body something that impressed upon his mind a strong persuasion that life was not extinct; and, after a lapse of three days, animation did indeed return. He recovered and lived a number of years longer. But during that lapse of human life his mind was intensely alive, and he saw, heard and experienced that which no human language was adequate to describe, although vividly impressed upon his memory. Ever after, he lived in the enjoyment of more than earthly devotion and rapture.

Dr. McLean is an able and expressive speaker, and doubtless his lecture will be one of unusual interest. It is free.

Amusements.

HENDERSON'S.—Mr. W. J. Cogswell, the sterling leader of the stock company at the Pittsburgh Theater will receive a benefit this evening. Mr. C. is an actor of no mean pretensions, one who is always well up in his parts. He merits a crowded house, and we doubt not he will receive it. The accomplished Ettie Henderson will appear on Tuesday as "Fanchon."

OPERA HOUSE.—Mr. Maurice B. Pike, a rising young actor of the stock company, takes a benefit at the Opera House to-night. A good bill is offered.

Maltreating a Boy.—A lad of tender years named Thomas McCoy, appeared at Alderman Taylor's, in the Fifth Ward, on Saturday, and preferred a charge of assault and battery against a German named John Grass, a pot-maker in McCully & Co.'s glass works. Grass, it seems, has a number of persons working under him, and he exercises his "brief authority" in a most overbearing and tyrannical manner, especially upon such as are the least able to defend themselves. Young McCoy being one of the number, determined on quitting his employ, and demanded the wages due him, when he was furiously set upon by Grass, who kicked him several times, and also threw a large lump of coal at him. The valorous Teuton was arrested and gave bail to answer.

The Weather.—Lingering winter in the lap of spring sounds well as a poetical trope, but its realization is anything but pleasant. A few days since we were blessed with a genial, balmy atmosphere, suggestive of buds and spring radishes; but lo! in a night, a cold, chilly rain set in, which in a few hours congealed, turning rain-drops to crispy flakes of snow, sheeting the pavements with ice, and causing human bipeds perceptibly to shiver as one that taketh the ague. As a result of this sudden change, many of our friends are in the enjoyment of fine healthy colds.

Very Disorderly.—A resident of Reserve township, was arrested on Saturday last, charged with disorderly conduct, on oath of his wife, for which offense he was fined ten dollars, by his honor Mayor Morrison, and held in the sum of three hundred dollars to keep the peace toward his "better half." On Saturday night, Henry got drunk in consequence of his domestic difficulties, and raised a row at his dwelling. At the present writing he is in the tombs awaiting a hearing.

Shoplifters About.—On Friday afternoon two men entered the establishment of Andrew Beggs, on Penn street, Fifth ward, and while Mr. Beggs was selling one of them a pocket-book, the other adroitly transferred a valuable revolving pistol, valued at twenty dollars, from a shelf to his own pocket. The twain then left the store, and it was not until some time afterwards the proprietor discovered the theft. The parties are unknown.

Up Again.—The case of P. Duff vs. Charles and George Jeremy, being an application for an injunction to restrain the respondents from erecting a slaughter house on a lot adjoining the private residence of the complainant, in Pitt township, was up again before Judge Hampton, of the District Court, on Saturday morning. A number of witnesses were examined, but the hearing was not concluded.

Settled at Omaha, N. T.—The Omaha *Republican*, published at Omaha, Nebraska Territory, contains the following: "We were happy to meet in our city Mr. C. F. Henderson, from Pittsburgh, Pa., who has come here as a permanent resident. Mr. H. is a very accomplished accountant, and brings with him the highest recommendations for skill and proficiency in his profession. We extend to him a hearty welcome among us."

Sentenced.—Judge Stowe, on Saturday, sentenced John Smith, alias Smith Miller, convicted of two charges of larceny, to two years in the penitentiary—one year on each charge. George Smith, alias Watson, convicted of stealing an overcoat from H. Brady Wilkins, Esq., was sentenced to two years in the penitentiary. The former is a young man, while the latter has passed the meridian of life, and is an old offender.

The World's Fair.—A copy of the ground plan of the Crystal Palace, at present erecting on the Champ de Mars, Paris, for the great exhibition in 1867, with the several spaces marked thereon allotted to the several States which will exhibit there, has been left by Mr. J. Murdock, Jr., at Messrs. J. R. Reed & Co.'s Jewelry store, Fifth street, where any one interested in the matter may see it.

Malicious.—Two lads were arrested and taken before Mayor Morrison on Saturday, charged with entering the cellar of R. B. Francis, Esq., and stealing therefrom a quantity of eatables. Mr. Francis did not wish to prosecute the urchins for larceny, and the probability is they will be compelled to pay the amount usually inflicted in cases of disorderly conduct.

Another Pithole.—A postoffice has been established at West Pithole, in Venango county, and S. V. Morse appointed Postmaster. This is the third office in that region which the oil interests has demand. The first, Pithole City, second, Pithole Centre; and third, West Pithole. Persons addressing friends in that section should be careful to designate the office.

Arrested for Larceny.—On Friday afternoon, a man named Stephen Daft, was arrested by officer Campbell, of the Allegheny police, charged with stealing meat from the stand of a butcher named Heim, in the Market. The defendant was held for a further hearing.

In a Bad Condition.—We understand that a number of property-holders, in the Borough of Temperanceville, design prosecuting the Steubenville Turnpike Company for not keeping the road in *navigable* condition, as they are required to do under their charter.

Fare Reduced.—The rate of fare on the Manchester Passenger Railway has been reduced from seven to *six* cents. The reduction took effect on Saturday, the act of Assembly authorizing the company to charge seven cents having expired on that day.

The Fortune Seeker, by Mrs. Emma D. E. N. Southworth. Philadelphia: T. B. Peterson & Brothers. This book is fully equal, if not superior, to any of the former works of Mrs. Southworth. For sale by Henry Miner.

Committed.—Daniel S. Gysinger, whose arrest on a charge of malicious mischief we have already noticed, was committed by Mayor Morrison for a further hearing to-day.

A German, while walking along Fulton street, on Sunday morning, fell on the icy pavement and broke a leg. He resided in the Seventh ward.

CEMETERIES.

HILLDALE CEMETERY.—A rural and most picturesque place of sepulture, situate on the uplands, immediately north of Allegheny City, on the New Brighton Road. Persons wishing to select Burial Lots will apply at the Superintendent's office, at the Cemetery. Title Deeds, Permits and all other business will be attended to at the Drug Warehouse of the undersigned, corner of Federal and Lacock streets, Allegheny.

MONDAY, MARCH 26, 1866.

FOR GOVERNOR:

MAJ. GEN. JOHN W. GEARY,

OF CUMBERLAND COUNTY.

NOTICE TO ADVERTISERS.

Notice is hereby given that hereafter all TRANSIENT advertisements received at this office must be paid for when handed in, except in the case of yearly advertisers, whose bills will be rendered quarterly, as usual. Advertisers will please make a note of this, as the rule of cash payments for advertisements of the character stated, will be inflexibly enforced.

The price of our paper is THREE CENTS at the counter or from newsboys. Served by carriers at FIFTEEN CENTS per week.

HON. J. K. MOORHEAD.

Some days ago we mentioned the fact that the business men of this city were taking measures to make a requisition on this gentleman for a continuance of his services in Congress. In our advertising columns this morning will be found a letter addressed to him, requesting the use of his name as a candidate. This letter is signed by a large number of the most reputable and influential houses. Whatever may be Mr. MOORHEAD's decision in the premises, this testimonial from friends and neighbors—constituents during the long period of his public services—is highly honorable to him and must afford a pleasing reminiscence for his later years.

A MISAPPREHENSION.

When Mr. STEWART, of Nevada, presented to the Senate his resolutions to base universal amnesty for political offenses upon universal suffrage, it was generally supposed the measure originated with the President, or had his approbation. The cordial, if not confidential, relations subsisting between the President and the Senator, was the cause of this supposition. It is now known that the proposition was made at the suggestion of Mr. H. S. FOOTE, of Tennessee, whose daughter is the wife of Mr. STEWART. The President does not favor the suggestion. Indeed, his policy excludes adjustments of every description. He holds that the Southern States forfeited none of their rights by rebellion, and that it is a wrong to insist upon any conditions as precedent to restoration. True, his own practice does not conform to this theory; quite the reverse; but he means the action of Congress shall conform thereto. This will be more distinctly discerned, in the progress of events, than it is now, by the masses of loyal people. It will be found that whatever arbitrary authority the President has exercised hitherto, or may exercise hereafter, over the rebellious States he will veto every measure passed by Congress that impinges on the idea that those States are in the Union in the same absolute and unqualified sense as the loyal States.

The sooner Congress comprehends the situation the better. Now, a large proportion of the members are beating about endeavoring to hit upon some middle ground on which the President will meet the Houses and act in concert with them. It is this attempt to accommodate measures to the wishes of the Executive, and so to promote harmony, that imparts incoherence and inefficiency to the attitude and action of the chambers. They have but two choices. One is, to abdicate authority by submitting to the dictation of the President. The other, to digest, as speedily as practicable the measures they deem essential to a wise permanent and beneficent reconstruction of the Union, pass them, let them be vetoed, adjourn, and go the people on the issue as it will then stand.

Now, the President has the advantage. His policy is definite, intelligible, incisive. He neither vacillates nor temporises in respect to it. His boldness and energy, even when in excess and degenerating into naked obstinacy, command a certain sort of respect. To the multitude Congress appears not to have a Policy; or, at least, one susceptible of apt definition. It is, indeed, understood that Congress insists on conditions—on guarantees for future tranquility and progress—but precisely what these conditions are no one can tell. There is a strong and deep feeling among loyal men in accordance with this prevailing idea in Congress. This popular demand is that conditions of restoration be propounded and enforced; and that these conditions cover to a large degree as the imperfections of human forecast will allow, all the points on which farther trouble is likely to break out.

This unity in the Executive and apparent want of it in the Chambers is not anomalous, but in the very nature of things. Where only one has to deliberate, and that single individual is possessed of a clear understanding and an unbending will, there is little difficulty in maturing a judgment, giving it a sharp expression, and causing it to be recognized in all its parts as well as in its entirety. The case is very unlike this when many persons are thrown together in a deliberative assembly. It is not easy, in any negotiation of prime importance, to bring two or three hundred men promptly to concurrence. Each one necessarily sees some points, intrinsic or collateral, under a different light from his fellows. The perplexity is increased when two assemblies, organized on different bases, and hence subject, in a measure, to conflicting influences and motives, must necessarily come to substantial agreement before a judgment can be rendered and a plan be finally developed. It is the facility with which a few are enabled to act together, and the difficulty of bringing many into concert, that constitutes the most specious plea in behalf of monarchy. The unity that comes of solitariness in the exercise of power makes a strong impression on beholders. In France the advocates of imperialism hold up NAPOLEON III. as *the* representative of the French people. It was in obedience to the same instinct that, in the late call for what proved to be an insignificant demonstration in this city, the President was put forward as *the* representative of the American people.

We do not make these suggestions because we desire to foment disagreements; but because we see no probability whatever of concurrence between the President and Congress, and hold it to be essential for the Chambers, if they mean to escape discomfiture and disgrace to decide what points they mean to insist on and what points they are ready to waive.

DEMOCRATS of both varieties—rebel and copperhead—endorse the President's Policy. They do not do so through dissimulation. Their primary motive is not to distract and divide the republican party. That Policy is their Policy. If they were absolutely free to chose what Policy they would, and put it in operation, this is the Policy of all others they would select. It comports with their ideas of the present, and their schemes for the future. It is the Policy that offers the fairest chance of their restoration to political ascendancy in the nation, and of the ulmate fulfillment of any of the schemes for the consummation of which they plunged the Union into the horrors of a fratracidal war.

EIGHT HOURS.—The Legislature of Ohio has passed a bill making eight hours a legal day's work.

AS WAS EXPECTED.

No sooner was the President's new Policy developed and understood than all the rebels in the Southern States and all the copperheads in the Northern States, burst out into hallelujahs in praise of it and its author. Their high strains of adulation, resounding from one section of the country to the other, filled every valley, floated above every hill and mountain, and surged, mighty billows of sound, across the Atlantic. In Great Britain the tory journals instantly took up the strain, the London *Times* leading off. Every holder of rebel bonds; every builder of rebel privateers; every blockade runner; every hater of universal liberty and impartial justice; is shouting himself hoarse over the great statesman that fills the presidential chair of this republic, and in honor of his benignant Policy for dealing with rebels. This does not surprise us. Having encouraged the Southern leaders to go into the rebellion, by huge promises of sympathy and assistance, they are now anxious to reinstate them as fully as possible in the control of the restored Union. It is not love of the republic, but love of the rebels, that prompts them.

We should have a good deal more faith in their protestations if they would evince some disposition to deal with the Fenian conspirators on the same lenient principles they seek to enforce on our government. Who imagines that, in case of a genuine and bloody insurrection in Ireland, so formidable as seriously to shake the British throne, the leaders of British opinion would, in six months after the close of the struggle, demand an act of total oblivion from the Crown, and the admission of an hundred Fenian chiefs to seats in Parliament? Every man knows England does not manage her affairs on that principle. Such an act would be to invite fresh conspiracies and returning perils.

CONNECTICUT—THE PRESIDENT.

The State election in Connecticut will take place one week from to-morrow. The republican candidate for Governor is Gen. HAWLEY, who served faithfully and bravely all through the war. He is besides, the editor of the leading republican newspaper at Hartford. The democratic candidate is Mr. ENGLISH. He was in the last Congress as a democratic member, and behaved better than most of his associates on that side of the House.

It is yet in doubt to which of these competitors the influence of the national administration will be given. ENGLISH supports the President's Policy, which HAWLEY, treating the President with marked respect, asserts the authority of Congress to make the laws. A portion of the federal office holders have taken the stump for ENGLISH. HAWLEY has been to Washinton and had a talk with the President on this point. He got nothing but ambiguous words, which we could possibly construe as favorable to himself, and the democrats, with more show of plausibility, interpret against him. Is it fidelity to the party that elected him for the President to take and hold such a position as this? Clearly not.

SLOCUM ON GEARY.

The democrats are trying to make out that GEARY is only "a paper General." It is an uphill business. The records are all the other way. As an additional specimen take the following from Gen. SLOCUM, who was the democratic candidate for Secretary of State, in New York, last year:

> "HEADQUARTERS TWELFTH CORPS,
> "ARMY OF THE CUMBERLAND,
> "MURFREESBORO, Tenn., Nov. 13, 1863.
>
> "MY DEAR GENERAL: I am very happy to hear the good reports which reach me from all sides relative to the conduct of your command in the recent action. The contest was one of very great importance. The highest credit is awarded to you and your command, not only by General Thomas, but by all officers conversant with the circumstances.
>
> "As I was not with you, I can claim no portion of the credit gained, nor can I, with good taste, publish an order expressing thanks to you; but I wish you and your command to know that I have been informed of all the facts in the case, and that I feel deeply grateful for their gallant conduct, and for the new laurels they have brought to our corps.
>
> "Your obedient servant and sincere friend, "H. W. SLOCUM.
>
> "Brig. Gen. J. W. Geary, commanding 2d Division, 12th Army Corps."

A GEORGIA OATH.—The Internal Revenue Bureau received the following amended iron-clad oath from a Georgian, appointed Assistant Assessor for one of the sub-districts in that State:

"I, ——, of the County of ——, and State of Georgia, do solemnly swear that I have never voluntarily borne arms against the United States since I have been a citizen thereof, except as a Captain in the Confederate States Army; that I have given no aid, &c., to persons engaged in armed hostility, except as aforesaid."

The printed form of oath is interlined so as to truthfully set forth the new official's correct status."—*New York Tribune.*

Well, that accords with the latest governmental definition. It is now held that no former acts of treason militate against a man's claim to loyalty, if his present purpose is to make no farther war on the national authority. Upon the same principle, a shameless adulteress is an innocent woman, and her husband is bound to treat her as such, provided she has resolved not again to repeat her crime.

A CORRECTION.—In giving, on Saturday, the telegraphic report of the vote on the Loan Bill, Mr. MOORHEAD's name was inadvertently omitted from the list of yeas.

THE ARMY OF THE UNITED STATES still numbers over one hundred and fifty thousand men. A large and speedy reduction is every way desirable.

AFFAIRS IN LOUISIANA.—Quite a number of loyal men from Louisiana are here. They represent the condition of affairs in their State as truly deplorable. White loyalists are leaving many parts of the State on account of the strong rebel sentiment, and many outrages are daily perpetrated on the colored people. Dr. James Ready, of New Orleans, is here, and is asking protection for the loyal people. Much complaint is made here at the course of Gen. Canby, in appointing Mr. Rozier, a strong pro-slavery Copperhead, as temporary Mayor of New Orleans. It is represented that with the patronage of the Mayoralty in the hands of a good Union man the loyalists could carry the State.

WE *know* that President Johnson had several consultations with prominent Democratic politicians of this State just before the late Convention, and entered cordially into every scheme suggested to strengthen the probabilities of Democratic success in Pennsylvania at the coming election. To the honor of two gallant soldiers of the Republic be is said, that they promptly rejected the cunningly devised plan to dim their laurels, so nobly won, by laying them on the altar of the foes of their country's cause.—*Chambersburg Republican.*

A CORRESPONDENT of the London *Athenaeum* writes from Rome: "An interesting novelty has sprung up among us, in a city where all our surroundings are of the olden time. Miss Edmonia Lewis, a lady of color, has taken a studio here and works as an sculptress in one of the rooms formerly occupied by the great master Canova. She is the only lady of her race in the United States who has thus applied herself to the study and practice of sculptural art."

ONE of the clerks employed in arranging the rebel archives, to-day came across a letter written in 1861 by the former editor of a Democratic paper in Iowa, and subsequently a Brigadier General in the Union army, to Jeff. Davis, in which the writer expresses his sympathy for the cause of the South, and requests Jeff. to give him a commission in his army.

GENERAL NEWS.

AT Kenosha, Wisconsin, there is a Menominee squaw, by the name of Wha-Not-to-Mecoet, who was for several years the Indian wife of Jeff. Davis. She is about fifty-five years of age, and in her youthful days was reported good looking. She commenced to live with Jeff. in the year 1829, while that hero was stationed at Fort Winnebago.

PEACHES IN SOUTHERN ILLINOIS.—The Chicago *Journal* has a letter from a correspondent at Du Quoin, which says:

"I take the liberty to state that at present all the orchards around Du Quoin show live buds enough for a full crop. Some varieties show but very few dead buds. Other fruits uninjured."

THE number of young Southerners of both sexes, who are at present seeking employment in the Northern cities is incredible. It is said that in New York alone there are more than fifty thousand Southern-born-and-bred persons seeking their fortunes.

ON Tuesday forenoon, a load of hay being driven through one of the leading streets in Rochester, New York, was discovered to be on fire, and before the hay could be dumped from the wagon and the flames suppressed, considerable of it was consumed.

ROLL ON.—A Harrisburg correspondent expresses the belief that the *unterrified white man's party* will roll up a large majority for Heister Clymer. We fear that after the election they will simply *roll up their eyes.*

IT is stated that the reason why so many Americans are going abroad, is the fact that a family can live in Europe on the rent of their house in any of the great American cities.

UNION ORATION IN CONNECTICUT.—Horace Maynard, Col. Stokes and Senator Fowler, all of Tennessee, go to Connecticut to take part in the canvass for General Hawley.

CHOLERA quarantine regulations at New Orleans have been made much less stringent. West India, Mexican, Florida and coast-wise shipping is admitted without detention.

PENNSYLVANIA is the only State, thus far which has actually assumed the care of the children of her dead soldiers, and 2000 of these are now in school in the State.

THERE were more than twenty divorces granted at the recent term of the Court at Woodstock, Vermont—nearly half of which were on account of adultery.

A NEEDLE company, capital twenty thousand dollars, has been established at Wolcotville, Connecticut.

POLITICAL.

TO HON. J. K. MOORHEAD:—

DEAR SIR:—The undersigned in canvassing around for a Candidate for Congress feel that your present experience, influence, and great usefulness in that body eminently qualify and fit you for the position; and we also consider that the place is due to you for your valuable services, your devotion to the Union, and your earnest and efficient advocacy of the American System, in which your own District is so vitally interested. We therefore urge and earnestly request that you will permit us to use your name as our Candidate for Congress for the 22d District in the next Republican Union County Convention.

WE, THE UNDERSIGNED, Merchant Tailors, of the cities of Pittsburgh and Allegheny, desire to inform our customers and the public in general, that owing to the disadvantages which we labor under in regard to giving six months credit, as our goods cannot be purchased upon the same rates as heretofore, and having to pay our workmen weekly in cash for their labor, besides paying out monthly a heavy Revenue Tax upon the amount of our gross sales, we are compelled thus by force of circumstances, to limit our credit system to THREE MONTHS; all accounts being due and payable QUARTERLY, that is, upon the FIRST DAYS OF JANUARY, APRIL, JULY AND OCTOBER.

SPECIAL NOTICES.

☞ **AYER'S PILLS—Are you Sick,** feeble and complaining? Are you out of order with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangement of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

AYER'S AGUE CURE,

For the speedy cure of *Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.*

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by B. A. FAHNESTOCK'S SON & CO., and by all Druggists. mh16,2mM&wF

☞ **RETROUVEY'S TURKISH** BANDOLENIAN HAIR TONIC. THE DRESSING AND RESTORER OF THE AGE. TURKISH BANDOLENIAN.

RETROUVEY'S TURKISH BANDOLENIAN. What can be more acceptable than anything that will beautify? that will restore nature's decay by stopping the hair from falling out, restoring its natural color, making it to grow in luxuriance and beauty, assist in putting it up according to the present style and fashion and keep it in place? This *Retrouvey's Turkish Bandolenian Hair Tonic* will do, and for proof we refer you to any person who has tried it. It is acknowledged to be the beautifier of the age, the only Hair Tonic and Restorer worthy of the name. In Turkey, in France, in England, in America—everywhere where the "Bandolenian" is known—it is pronounced the *ne plus ultra* of Hair Preparations. Remember, it is free from all metallic poisons that are contained in most Hair Colors and dressings. It is the extract of many flowers and herbs, beautifully put up, an ornament to the toilet.

FINANCE AND TRADE.

SATURDAY, March 24, 1866.

Gold continues weak and drooping, being quoted in New York to-day at 125@126. This is the lowest point reached by the precious metal in nearly three years, or since the early autumn of 1863, when sales were made as low as 122. The heaviest fall last year was to 128¾ in May. The favorable financial and commercial news from Europe; extensive exports of cotton, provisions and other kinds of domestic produce, and the consequent extreme depression in the foreign exchanges; the gigantic revenues and diminishing expenditures of our Government; the rapid improvement in the public credit, and the encouraging prospect of the funding bill in Congress, combine to accelerate the downfall of the speculative idol of recent times, and to bring back commercial values to their normal level.

In our local stocks the transactions have been remarkably light during the week. Bank shares are steady, with a fair demand, while Government bonds are firm and looking up—Seven Thirties having touched par in New York to-day. Oil stocks very weak and almost entirely neglected. Columbia is offered pretty freely at 20, with sales reported at 19¾ 19½. It is rumored that the directors have concluded to pass the regular quarterly dividend, and it is this report that has weakened the stock.

—The Hon. E. G. Spaulding, of Buffalo, who, while in Congress, had much to do with the Legal Tender Act of 1862, and the National Currency Act of 1863, writes as follows on the true nationality and uniformity of National bank notes:

"The National Currency Act is generally right as far as it goes; it limits the amount to $300,000,000; requires the circulating notes to be well secured by gold-bearing Government bonds deposited with the Treasurer of the United States; requires each bank to redeem its circulating notes in lawful money on demand, and to keep an adequate reserve for that purpose; makes them a legal tender for all taxes and other debts due to the Government, except customs, and for all debts owing *by* the Government, except principal and interest of the funded debt. It also makes them receivable by each National bank for all ordinary debts due to them, and each bank designated as a depository is also required to receive it on deposit from all public officers. These are important provisions in the law for *nationalizing* this currency, and it consequently obtains a wide circulation. I would not change or alter any one of these provisions for *de-centralizing* the currency, but I think it does not go quite far enough in that direction. It will be perceived that all persons in the employ of the Government are compelled to receive it in payment for salaries and for materials and other services performed for the Government. It is now in effect made a legal tender from the Government to all this class of persons, including the salary of the President, Cabinet, Members of Congress, and the Army and Navy. If the President and other officers of the Government are compelled to receive it in payment for their salaries, why should not everybody else be required to take it from them for all ordinary debts they may incur? I can see no valid reason why they should be a legal tender to persons employed by the Government, unless such persons can also compel other parties to receive it from them. I think sound policy requires the act to be still further intended. I would go one step further to make the National Bank Currency, like the Bank of England notes, a general legal tender."

—A Washington letter says:

"The House Committee of Ways and Means evidently desires to report Mr. Hooper's Loan bill, and if that bill is reported it will be passed by the House. It gives the Secretary of the Treasury full power to fund all the maturing obligations of the Government, amounting to $1,600,000,000 or $1,700,000,000, but it deprives him of much power conferred during the war in several finance bills. Senator Guthrie, who is regarded as one of the ablest financiers at the Capitol, says that with the power already conferred by these laws Secretary McCulloch could restore specie payments within a twelve-month, *and it is understood that President Johnson will veto any bill passed by Congress which interferes with the return to a sound basis at the earliest practicable day.* There is, nevertheless, a strong influence being brought to bear here in favor of an increased paper currency, and many members of Congress are receiving numerous letters on the subject by every mail from interested continents."

—The New York *Times*, of March 24th, says:

"The funding measure before Congress has almost ceased to excite remark on the stock exchange. The impression is that nothing will be concluded on the subject by Congress for some weeks to come, if at all, and that the Secretary, on a review of his present funding authority, and under legal advice from the Attorney-General of the United States, will be satisfied to rest upon the laws as they now stand. Another report, this afternoon, is that the Committee of Ways and Means may report the bill to amplify the powers of the Secretary to fund the interest-bearing obligations of the Government, with a proviso to hold the old Greenback Circulation steady for six months or a year to come. At a later hour it was made known that the bill to this purport was before the House."

New York Stocks, Dry Goods and Money.

GOLD AND MONEY.

NEW YORK, March 24.—The market for money remained very easy, at 5@6 per cent. with the bulk of business at the lower rate. Gold was heavy at the close, and sold as low as 124¾, but the last sales were at 125.

STOCKS.

There was rather more steadiness in the stock market at the second regular and last open board, and prices were better in some respects. The following were the closing prices at 4:30 P. M.: New York Central, 92¾; Erie, 80½; Hudson River, 108¾; Reading, 101¼; Michigan Central, 103; Michigan Southern, 81¾; Cleveland & Toledo, 109¼; Rock Island, 115¼; Illinois Central, 115; Cleveland & Pittsburgh, 79¼; Chicago & Northwestern, 27¾; preferred, 55¾; Fort Wayne, 91¾; Ohio & Mississippi Certificate, 26; Tennessee 6s, 91¼; Missouri 6s, 83¼; 5-20s, 103¼; 10-40s, 90⅞; 7-30s, 100.

PETROLEUM STOCKS.

Petroleum Stocks were lower, and but few sales were made. We quote: Bennehoff, 11,50; Oil Creek, 1,15; Pithole, 6,25; Palmer, 4,00; United States 8,50.

GOLD AND MINING STOCKS.

Gold and mining stocks were [illegible] Atlantic, 5,30; Benton, 1,90; Cone Greg, 2,2[illegible] [illegible]ville, 50; Grinnell, 1,00; Smith and Par[illegible], .75.

WEEKLY REVIEW.

Flour—The market has been depressed. Prices have fallen off from 25 to 50 c[illegible]. Ohio shipping $8,20@8,65; St. Louis extra $11,75@16,00. The sales for the week were 4[illegible],000 barrels. Corn fluctuated; 72@75c for mixed western. Sales 270,000 bushels. Pork market excited; prices lower, owing to the reported disease; mess $25,25, prime $21,50. Sales 24,000 barrels. Coffee—business light. Sales 5,500 bags. Cotton dull and depressed. Receipts large; 40@41c for middling. Petroleum—trade moderate; refined in bond 39@40c. Sugar—in improved demand; fair to good grocery 10¾@11c; soft yellow 13@14c. Whisky steady at $2,25½.

DRY GOODS MARKET.

The following are the reports and quotations from the New York Dry Goods Exchange: The rapid decline in Gold to-day has unsettled the prices of Dry Goods. The market is dull and downward. Brown Sheetings—Pacific A, 25; Laurel C, 20; do. H, 23. Bleached Shirtings—Bates, 40; Bates B B, 30; Columbia A, 24. Prints—Merrimac W, 24; Merrimac Dunnell, 17; Freeman, 15. DeLaines—Manchester, 22; Pacific, 22½. Ginghams—Lancaster, 25; Hartford, 21½. Cambrics—Washington, 15; Manville, 18. Silecias—Monapequa, 35; Lonsdale, 28. Canton Flannels—Salmon Falls, 35; Nashua, [illegible]. Hoop Skirts—T. & A. T. Mayer's I. X. L. [illegible] fair demand at former prices. The following dispatches were received at the Dry Goods Exchange: St. Louis—Sales of Prints and Shirtings have been large this week. Providence—The market is very quiet, and but little doing.

FINANCE AND TRADE.

NEW YORK, March 24.—The *Post* says: The loan market is dull and well supplied at 5 per cent. on call; commercial paper passes at 7@9 per cent. with scrutiny of dry goods and produce bills. The stock market opened with a depressed and feverish feeling, at the close there was more animation. Governments are firm except the bonds of 1868 which are offered at 116; Five-Twenties are wanted at 103⅞ for Coupons, and those of 1864 at 103¾; Ten-Forties are a fraction better and closed at 90¾; in Seven-Thirties, the speculative movement originated a few days ago continues. Border State Stocks are rather better, Tennessee having advanced to 91¾@91½; Virginia, 68@69 and North Carolina to 81. Missouri is steady without much activity. Railroad shares are dull and lower with limited transactions.

The *Commercial* says: The passing of the Finance Bill by the House of Representatives has produced a slight flurry upon the market. The adoption of a clause authorizing a foreign loan has taken Wall street by surprise, and the bill is regarded as granting the Secretary of the Treasury substantially the power he asks for. The action of the House would produce a more marked effect upon affairs here were it certain that the bill would pass the Senate in its present form. There is however considerable doubt as to whether the Senate will not insist upon a material curtailment of the Secretary's powers, and this probability is confirmed by our advices from Washington. Gold declined steadily to 125@125⅜ but without any panicky feeling, and the shorts were able to borrow what they required for making deliveries at 1@1½ per cent. per day. The appearance of gold offering on loan is somewhat singular; it is rumored on the street that the Government is a lender of gold, but it is incredible that the Treasury should engage in any such operations.

Foreign Petroleum Market.

NEW YORK, March 22.—The Brokers' Liverpool circular by the Australasian, reports sales 750 barrels refined petroleum at 1s 10½d, or tinged up to 2s for good; also, 5 tons lubricating oil at £17 10s ton.

Messrs Wakefield, Nash & Co. report the market still dull, and prices again rather lower. Good refined Pennsylvania has been sold at 2s per gallon.

Baring's (London) Circular under date of Friday, P. M., says there are offers at 2s 1d for refined, and 1s 6d for spirits.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, MONDAY Marbh 24, 1866.

The produce markets have been dull and unsettled throughout the week, and what is worse still, the indications for an immediate improvement are by no means encouraging. The decline in gold—which is quoted at 125 in New York to-day—together with the uncertainty in regard to financial matters, have a tendency to restrict business very much, and the policy of our merchants generally is to buy very sparingly, and sell as much as possible.

GRAIN—Wheat is dull and entirely nominal; sale of 175 bush Club at $1,70, and 175 bush Michigan Amber at $1,85. Oats a shade firmer, in consequence of light arrivals; sale of 1 car prime at 43; also, small sales at the usual advance. Corn is dull, with small sales at 60 to 65. Barley is nominal at 75 for Spring, and 90 for Fall. Nothing doing in Rye.

FLOUR—Is dull but unchanged. Small sales from store at $8¾ to $9½ for Spring; $9¾@9¾ for half Spring and half Winter, and $10@10½ for all Winter. Rye Flour is selling at $5@5½. Small sales of Cornmeal at 75 per bushel.

PROVISIONS—Bacon is dull but unchanged; sales at 13¾@14 for Shoulders; 16¼@16½ for Ribbed Sides, and 22@22½ for Sugar Cured Hams. Lard is quoted firm at to 18¾. Small sales of Mess Pork at $28@29.

SEEDS—Cloverseed continues dull, with a supply largely in excess of the demand; small sales from store at $5,50@6 per bush. Timothy Seed, also, is dull at $3½@3¾. Flaxseed is still quoted at $2,75.

BUTTER—Continues very scarce, and prime to choice Roll sells readily on arrival at 55@60 cents.

EGGS—In good supply, and a little dull but unchanged; sales at 23@24.

CHEESE—Is quoted at 23@24 for Hamburg, and 25 for Goshen.

MILL FEED—Sales of 13 tons heavy Shipstuffs, in lots, at $1 per cwt. Middlings are selling in small lots at $1,45@1,50.

HAY—Is selling from city scales at prices ranging from $18 to $22 per ton, the latter figure only for prime Timothy.

POTATOES—Steady with a very good local demand, at $1,15@1,20 per bush, and $3½@3¾ per bbl.

OIL—Sales of No. 1 Lard at $1,75.

DRIED FRUIT—Dull but unchanged. Apples may be quoted at 13@16c, and Peaches at 15 to 20 for quarters and halves.

BEANS—Dull; small sales from store at $1½@2 per bush.

HOMINY—Is dull but unchanged; sales at 5c to the trade, and 3½@3¾ in a small way.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, March 24, 1866.

CRUDE—The large amount of oil sold on Friday had a tendency to stiffen the market to-day, and while there is no essential change in prices, there was more inquiry, and some buyers, who have been holding off in anticipation of a still further decline, have reluctantly changed their tactics and commenced buying. It must be confessed, however, that the advices both from Europe and the East, did not furnish any basis for an advance, while gold is still tumbling, being quoted in New York to-day at 125. We have the following sales reported: 2000 bbls, to be delivered between the 1st of April and 10th of May, at 13; 1400 in bulk, on the spot, at 12½; 400, bbls included, at 17¼, on the spot; 4000, in lots, to arrive, at 13; 2000, to be delivered in the latter part of April, at 13, and 400, on the spot, at 12½—total number of barrels reported sold, *ten thousand six hundred.*

REFINED—The decline in gold appears to have had a rather unfavorable effect on the market for bonded oil in the East to-day, and this, of course, had a tendency to restrict operations here. We are told that several large orders, both for immediate and future delivery in Philadelphia, were withdrawn during the day, though this really was a matter of no great importance, as they could not be filled at the figures offered, but it shows, nevertheless, a little weakness on the part of exporters; a disposition, if such a thing is possible, to force a still further reduction in prices. We quote nominally at 37@37½ for immediate delivery in Philadelphia; 40 for May; 41 for June; and 42@42½ for July. It is but proper to remark, that our refiners at the present time, are very indifferent about selling at the above quotations, but these, we are assured, are the best offers that can now be obtained. No movement whatever in Free Oil.

NAPTHA AND RESIDUUM—There is no new feature to note in either of these articles, and with no demand, and, of course, no sales reported, it is impossible to give quotations.

ARRIVALS—The arrivals of oil since our last report were very insignificant, amounting in the aggregate—from all we could learn—to only a few hundred barrels.

Review of the New York Grocery Market

(From the Commercial List, March 24.)

Coffee—Prime and choice qualities, which remain very scarce, are in better request, and are here, would bring full prices, but the market for all other descriptions remains quite dull. There is, however, little or no pressure to sell, and our quotations are unchanged. The sales are 1968 bags Rio, in lots, per Bremerin, at 20½c; 238 Laguayra, 23@250 do, Java, to arrive, at 27c, duty paid; 332 do St. Domingo, for export, 12 5-16, in bond, at Baltimore; 3000 bags Rio, per Adelaide, 15¼, in bond; 3100 do per Adelaide Pendergast, on terms not made public; and at Philadelphia, 1200 do 15¾, in bond, all gold. The stock of Rio and Santos, yesterday was 66,400.

Molasses—There is but a moderate inquiry for home use, and the market is inactive, but there is no particular change to note in prices. The sales are 564 hhds and 50 tcs Cuba Muscovado at 43@45c; 325 hhds Barbadoes, 60; 275 Porto Rico, 70@75, 4 mos; and 30 bbls New Orleans, $1, cash. By auction, 279 hhds and 19 tcs new crop Porto Rico sold at 67@71c; 50 hhds Muscovado, 41@43; and 75 do Barbadoes, 39½, 4 mos. The stock yesterday was about 800 hhds Porto Rico, 8000 Cuba, &c., and 200 barrels New Orleans.

Sugar—The market for raw has continued active, the chief inquiry being from refiners, though the trade have also bought pretty freely, and prices have appreciated one-eigth of a cent per pound, closing quite firmly at the improvement. The arrivals within a day or two have been pretty large, but so far they have not had any depressing influence. Refined is also more active at somewhat improved prices; we quote other than Stuart's—hard, 16@16½c; soft white, 14¼@15¼; and yellow, 13¼@14¼. Messrs. Stuart quote their best crushed, granulated, and ground 16¼c; white A, 15¼; and yellow C, 15, cash. The sales of raw are 3710 hhds Cuba at 10@12½c; 45 Clarified do, 13¼@; 349 Porto Rico, 11½@13½; 33 St. Croix, 11@12¼; 12 Clarified Demerara, 13½; 2 hhds, 2 tcs, and 100 bbls Barbadoes, 10¼; 1133 bags Brown Pernambuco, 11¼; and 3433 boxes Havana, 9½@13, 4 mos.

Chicago Market.

CHICAGO, March 24.—The decline in Gold and the unfavorable New York news has had a depressing effect on the produce and provision markets, and buyers have the advantage for nearly everything. Mess Pork is held at $25,25@25,50, but there are no buyers at anything over $25. Lard is dull and heavy at 18c. Sweet pickled Hams are in fair request, with sales of 300 tierces at 15c. Beef tongues are quoted at $30 per barrel. Bulk and English meats are held firmly, but, in the absence of sales, we omit quotations. The market for dressed hogs is rather unsettled, as the sales are mainly in a retail way. Prices range from $10,25@11 per 100 pounds. Flour is extremely dull, and to effect sales holders would have to submit to a decline of 10@15c per barrel. Winter white extras sold to a limited extent at from $9,87½@12,25; spring extras at $7@8,25; superfine brands at $5,25. The depressing eastern news created quite a desire on the part of holders of wheat to realize, and the market receded 2@2½c per bushel with sales of No. 1 spring at from $1,22½@1,27½, closing at $1,23@1,23½. No. 2 spring is inactive and nominal. Rejected spring is selling in a small way at 65c. Corn is firm and steady at 41@41½c for No. 1, and at 39@40½c for rejected in store. Oats rule dull with trifling sales of fresh receipts of No. 1 at 23c. Rye is inactive and nominal. Barley rules dull and without important change. Seeds are steady and unchanged. Highwines inactive.

New York Market.

NEW YORK, March 24.—Cotton dull, heavy and nominally 1c lower, at 40c for Middling. Flour dull, heavy, and 10@15c lower, at $7@7,50 for Extra State, $8,10@8,55 for common to good shipping brands R. H. O., and $8,60@11,00 for Trade Brands, the market closing heavy. Whisky in middling request at $2,26@2,27 for Western—inside price for refined. Wheat dull and 1@2c lower; Winter Red Western at $2,35; No. 1 Milwaukee, $1,66—an extreme price. Rice lower and very dull; prime State 80c, with buyers at 79c. Barley steady for prime and heavy for common. Corn dull and 1c lower, at 66@72c for unsound; 73@75c for sound mixed Western, both in store and delivered. Oats a shade firmer, at 35@42c for unsound Western, and 5[illegible]@53c for sound do. Petroleum dull at 24@25c for Crude and 38@39c for Refined in bond. Pork steady at $25@25,25 for New Mess, closing heavy at $25 regular; $23,50@23,75 for Old do., and $21,25@22 for Prime; also, 3,500 bbls New Mess, for April and May, seller's option, at $24,50@25. Beef steady at $16@20 for New Plain Mess, and $20,50@24 for New Extra Mess. Beef Hams heavy at $36@37. Cut meats unchanged. Bacon heavy and lower, at 15@15¼c for Cumberland cut, and 16@16½c for short ribbed. Lard dull, heavy and lower; sales of 550 kegs at 16¾@19c—the latter an extreme. Butter quiet at 25@45c for Ohio, and 10@60c for State. Cheese quiet at 16@22c.

Baltimore Cattle Market.

BALTIMORE, March 21.—Beef Cattle.—The offerings during the past week were 676 head, against 919 head previous week. The supply this week is much less than last, with the quality about 37½ per cent inferior to those of last week. The average of the market to-day is about 37½ per 100 lbs over last week's average, taking the general quality of the cattle, although the quotation shows only 12½. Prices to-day ranged as follows: Very best on sale $8,50@9; first quality, $8@8,37½; second do, $7@$7,75, and scalawags and old cows $5,50@6,75 per 100 lbs. Average of the market $7,62½ per 100 pounds, gross. No stock cattle in market to-day.

Sheep.—The supply this week was only fair, with moderate demand; sales were made about as fast as they arrived at 6½@8c per lb, gross. One car load of extra sheep brought 8½ cents wholesale.

RIVER, WEATHER, ETC.

The river is falling steadily at this point, with ten feet in the channel by the Allegheny marks last evening. The weather has again turned quite cold, and considerable snow fell Saturday night and yesterday forenoon.

Business continues very dull at the Monongahela wharf, and what is worse still, the indications for any immediate improvement are by no means encouraging. Freights are very scarce, and the offerings for all parts are very meagre.

The Kate Robinson, from Cincinnati, with a fair trip, is the only transient arrival we have to report. The Emma Graham, from Zanesville, was due last night, and will doubtless be found in port this morning. The Robt. Moore, from Cincinnati, may be expected to arrive to-night or to-morrow.

We see it stated that the Revenue, but recently introduced into the Pittsburgh and Portsmouth trade, is to take the place of the famous Phil Sheridan, in the Wheeling and Cincinnati trade.

The Edingburg cleared for Cincinnati on Saturday, with an excellent trip, including a large number of passengers. The Julia left for Zanesville, as did also the Forest City for Parkersburg.

At the Allegheny wharf business continues rather dull in the way of freights, though the packets still seem to be doing a pretty good passenger trade. The Peerless, arrived from Oil City on Saturday, and the Ida Rees No. 2 got in on Sunday.

The Camelia will fill out to-day and to-morrow, with Cincinnati and Louisville freight, and will leave for Nashville on Tuesday evening without fail. The Nora is next in turn after the Camelia.

The Emma Graham, Capt. C. R. Stull, is the regular packet for Zanesville to-morrow, leaving promptly at 4 p. m.

The Armadillo, Capt. D. H. Swaney, is up for the Missouri River.

The Financier, Capt. Darragh, is filling up steadily for New Orleans.

The Louisville *Courier*, of Friday says:

The coal fleet commenced arriving yesterday, including the Wild Cat, Eagle, Tigress and Tom Jones; all with heavy amounts of coal in tow for the lower market. They descended the falls with their barges, the Wild Cat making three trips.

The towboat Tom Rees also made her appearance direct from Pittsburgh, with a low, black, dark mass beside her, with which she descended the falls, going down the chute and round the turn with the utmost caution and circumspection. Whatever it was alongside, she managed to bestow safely below the falls. Some said it was an iron-clad gunboat of the Monitor species.

The Amelia Poe departed for Fort Benton and the headwaters of the Missouri with a light trip. She will, doubtless, fill out at St. Louis. Captain Poe shipped a piece of Culbum's artillery before leaving, which he will use against the Indians, should the ruthless savages make a raid on his packet. The Captain belongs to noted stock as Indian fighters, he being a descendant of Adam Poe, who had the desperate and victorious encounter with Big Foot, in the Pioneer days, along the Upper Ohio.—*Cin. Commercial.*

The St. Louis *Republican*, of Saturday, says:

Mr. Willard P. Hall, a well known Upper Mississippi pilot, advances a theory which is well worthy the attention of all who are in any manner interested in the much talked of bridge across the Mississippi. Mr. Hall proposes that instead of a bridge over the river, a cast iron tube be laid under. This tube to be either on the bed of the river or below; whichever may prove most feasible. The project is perfectly, in our opinion, feasible, the grade in the northern part of our city allowing of a very easy descent to the bed, and on the opposite or Illinois shore the same may be said. This tube would remove all argument as to the heighth and width of spans, and also would never in any manner interfere with either steamboats or rafts. Mr. Hall is now having prepared a sketch of the proposed tube.
